

Personal Protective Equipment (PPE) Requirements

To ensure the safety of all employees and compliance with OSHA standards, the following PPE is mandatory for anyone performing final cleaning and labor on construction sites:

Hard Hat: Protects against falling objects and overhead hazards. Must be worn at all times on active construction sites.

Safety Glasses/Goggles: Required to prevent eye injuries from dust, debris, and chemical cleaning products.

High-Visibility Vest or Shirt: Ensures visibility around equipment, contractors, and moving vehicles.

Work Gloves: Protects hands from cuts, abrasions, chemicals, and sharps. Appropriate gloves must be selected based on the task.

Steel-Toe or Composite Safety Boots: Required to protect against heavy objects, nails, and slippery surfaces. Non-slip soles are mandatory.

Safety is everyone's responsibility. Proper PPE must be worn at all times to prevent injury and maintain compliance with safety standards.
